

YOU CAN TRANSFORM THE LIFE OF A YOUNG CHILD IN INDIA

"I was supported by Hope Gardens as my mother couldn't afford to look after me. I was so grateful. I worked hard and trained to be a nurse. I am now able to look after my two nieces and mother. I proudly serve people every day working at the medical centre" Elizabeth

SPONSOR A CHILD

Get in touch with Hilary or Alex for more information on sponsoring a child on info@hopegardensindia.org

KEEP IN TOUCH

Sign up for newsletters, appeals, prayer support and fundraising initiatives by contacting info@hopegardensindia.org

MAKE A DONATION

Supporting our Hope for Children initiative means that your funds will go where they're most needed within our children's programme. A small monthly donations help ensure children get fed on a regular basis.

HOW YOUR MONEY HELPS

- £5 a month helps cover basic medical attention for a child.
- £10 a month helps feed a child in one of our after-school programmes.
- £20 a month supports a child's education, school fees, books, uniform and transport to school.
- £25 a month supports a child's living and medical costs.
- £25 a month helps support one of the children with disabilities attending our school and helps cover basic medical attention.
- £100 a month starts up a new after-school feeding programme.

HOPE FOR CHILDREN

ENABLING COMMUNITIES, TRANSFORMING LIVES

Sponsoring a child covers their education and for those that live in our hostel also their living costs.

Providing education for children who are unloved because of their disabilities

Caring for children after school when no one is home to care for them and help with homework

CHILD SPONSORSHIP

"In the communities we serve, many Indian families live on less than £1.50 per day. Education and medical care come at a cost that many cannot afford as they struggle to just feed their families and are often crippled by debt"
Suguntha, Director Child Support

The Gardens brings hope as it is home to 30 children who we love and care for in our hostel. Our children are orphaned or semi orphaned children. The home has a wonderful family feel and they have great fun playing in the garden with their friends.

Many of the children's educational costs are covered by our amazing supporters, currently some of the children's living costs in the Garden are unmet.

The living costs are £20 per child per month

The education costs are an additional £20 per month

10 Children in our Garden have their living costs unmet.

CHILDREN WITH DISABILITIES

"In Indian society, those with learning disabilities are often neglected or abused and perceived as a burden or nuisance within the community."
Vasthi, Indian Communications Director

In our tranquil coconut grove, we run a school providing tailor made education programmes. We love and care for these vulnerable and often unwanted children, teaching them basic life skills and how to integrate into society.

Our school has recently been named number one school in Theni District! Our free school bus service makes this educational opportunity accessible for all.

It costs £25 a month to meet the educational and medical costs for each child

It costs £25 a month to cover the living costs of each child with disabilities in our hostel

FEEDING PROGRAMMES

"Parents work long hours and are not getting home until late, many don't have enough money for food. Children are left after school to their own devices. Our after-school feeding programmes ensure children don't go to sleep on an empty stomach" Rev Prakash, Cumbum Mettu

We run 6 after school / tuition centres, 3 of which offer hot meals for the children. Every day, over 150 children join our teams to play games together, be supported with homework and enjoy snacks and often a hot meal. Some children prefer to stay until 9pm doing school work as they have no electricity at home or while they wait for their parents to return home. We have identified several communities in great need and want to reach out to more children by setting up new programmes as well as offering more frequent hot meals at our existing programmes.

Feeding programmes cost c£250 a month to feed and tutor approximately 30 children.

Additional funds could provide hot meals more regularly
