

Hope Gardens

Hope Gardens

Hope for Children

Hello I am Esther

I am 9 and in 5th standard. I am an intelligent girl and I am very fond of learning. I recite a lot of memory verses I have learnt from my Grandmother. I have good memory power. My dream is to become a Doctor.

Both my parents are deaf and non verbal so I care for my them - my parents depend on me for every conversation and phone call. I help my mother and grandmother in doing all household chores such as washing, cleaning etc.

I live in the city Madurai with my brother Immanuel and my Mum and Dad. My Mum was a shot put player but became injured and without medical treatment now can't work so stays at home. My Dad works as a painter to earn money to look after us but it's not enough for our school fees.

My favourite colour is pink and my favourite food are Lemon rice with potato fry combo and fried chicken. My hobby is gardening and playing games. Do you know my favourite game is Hide & Seek!

Jesus multiplying 5 loaves and 2 fish for the great multitude is my favourite Bible Story. I have scored good marks in my Bible exam conducted at church and won prizes too. Everyday I pray.

Guess what! Hope Gardens has now enabled me to go to school! I still help my parents when I can but now I can learn and make friends for myself.
